

Thanks again for the Co-op's support of our mission.

Donations provided by Co-op shoppers and other local supporters enable Windsor County Partners to custom match girls and boys with mentors. Through caring adult volunteers, WCP builds healthy communities.”

You had requested a story about how the support of your shoppers made a difference, so I am sending along this true story below:

“A single mother with a serious medical condition cares about her teenage daughter's well-being, but cannot join her on active outings. At the mother's request, Windsor County Partners recently matched this teenage girl with a suitable, screened mentor. Together, this new mentoring partnership has already begun engaging in the outdoor activities they both enjoy. They are also planning further adventures exploring our region. These outings provide the teen's mother with respite and a chance to focus on her own needs.
